

# Is Your Rural Property Climate Change Resilient?

We've gathered experts with the latest research and guidance to shed light on ways you can protect your property, reduce erosion and increase stream bank and shoreline resiliency.

**April James**, Associate Professor, Canada Research Chair – Watershed Analysis, Nipissing University

**Jane White**, Master of Science in Environmental Science Candidate, Nipissing University

**Hassan Rouhani**, Climate Change Specialist, Bonfield Township

**Paula Scott**, NBMCA Director of Planning and Development

**Troy Storms**, Manager Lands & Stewardship

**Free  
Event**

**Thursday, February 27**  
**From 6pm-8 pm**  
**Corbeil Park Hall**  
**392 Highway 94 in Corbeil**
